count due the contractor for asphalt sidewalks be paid, and the two remaining blocks not yet measured be estimated by the Engineer and paid for. Adopted.

NUMBER ONE.

Ald. Hyman (Chairman) reported from No. 1 Committee as follows:—(1) Your Committee, having examined the following accounts and finding them correct, recommend the same for payment:—Re-audit, $785; salaries, $2,646.58; Hospital, $250; County of Middlesex, jurors' expenses, $612.80; printing and advertising, $208.04; election expenses (poll clerks), $56; law expenses, solicitors, etc., $974.11; coroner's inquest, $5; Fire Department, $882.88; Hospital, $964.73; gas account, $1,935.69; relief, $664.48; market expenditure, $1.50; street watering, $117—total, $10,103.81; (2) that the petitions of Wm. Westlake, Jas. Haslett and J. B. Simpson, for remission of taxes, be granted; (3) that the petition of J. W. Cryer, for allowance on taxes, be granted by allowing a rebate of $20. (4) that the petition of Messrs. Strathdee & Son be filed; (5) your Committee beg to report progress in the petitions of A. M. Shrieves, Ellen Fletcher, Ellen Finnegan, Sarah Tweedie, Job Cooke and Jane Insell; (6) your Committee beg to call the attention of the Council to clause No. 11 of their 24th report, which was deferred at the time of presentation, Dec. 18th last; (7) your Committee beg to submit December report of R. Wigmore, Police Court Clerk; (8) your Committee beg to refer the following applications for the position of assessors to the Council:—W. Y. Brunton, E. Glackmeyer and E. Towe; (9) your Committee, in presenting their last report for the year 1882, beg, as required by the by-law, to refer to some of the matters which have been before them during the year, and to show the attendance for the year, thirty-four meetings of your Committee have been called, at one only of which there was no quorum present; His Worship the Mayor was present at 27 meetings; Ald. Birrell, 28; Ald. Hyman, 30; Ald. Jones, 27; Ald. Ferguson, 30; Ald. Minhinnick, 21; Ald. Macbeth, 27; Ald. Sharman, 14; (10) your Committee, shortly after taking office, became aware of certain irregularities in the accounts in the Treasurer's office, and submit that the report of the re-audit as ordered by this Council and submitted by Mr. Jewell justifies the expenditure thereon, and presents a useful lesson for the guidance of your Committee's successors; (11) there has been opened under the supervision of your Committee during the year an entirely new set of books for the Treasurer's office, which cannot but prove beneficial to the incoming Council in rendering the details of the city accounts the more easy of comprehension; (12) the important matter of the assessment of the city received some consideration from your Committee; the late date at which they were able to take any steps prevented the accomplishment of any reform; your Committee would, however, recommend the Council of 1883 to endeavor by some means to remedy the main ground of complaint, namely, the irregularity of the present assessment roll; (13) during the year there have been numerous remittances and reductions in assessment made, by order of the Council, and while your Committee have no wish to shirk their part of this responsibility, they would strongly urge the necessity of a reform in this direction, pointing out that in the meaning of the Act no Council or Committee can remit or reduce assessment, after the final sitting of the Revision Court, except in cases of relief; (14) your Committee have examined the receipts and expenditures of the year to Dec. 30th, and (after taking into account the probable outstandings) compared the totals with the estimates of the year, and are gratified in being able to report that the expenditure of the year will probably be within the estimates; (15) your Committee desire to acknowledge the efficient services of your Treasurer in his department, and would recommend their successors to take into consideration the insufficiency of his present remuneration.

Ald. Pritchard moved in amendment, seconded by Ald. Taylor that a rebate of $20 be allowed Messrs. Strathdee. Lost.

The report was then adopted as read.

BOARD OF HEALTH.

Ald. Browne (Chairman) reported from the Board of Health as follows:—

To His Worship the Mayor and members of the Council:—

Gentlemen—As required by by-law I beg leave to present the following report from your Board of Health, viz:—

That your Board has much pleasure to report that through a kind Providence we have been blessed with freedom from any epidemic, while those around us have suffered more or less from that dire disease small-pox.

During the year (municipal) now closing we have to report that we have had four cases, and your Board, as soon as they were made known, took the necessary steps to prevent its spread, and, I am happy to say, they were successful.

Your Board also, on January 27th, made the necessary arrangements for the vaccination of all who would avail themselves of the opportunity. The medical men of the city gave material aid to your Board by reporting cases coming under their notice, as well as attending to the different wards for vaccination purposes.

On the 17th February your Board appointed sub-inspectors to abate nuisances existing, or that might exist within the city, and have much pleasure in according to them the thanks of the Board for the zeal manifested in the performance of the work assigned to them.

The nuisance that has existed in the basement of City Hall for years has been removed.

The flushing of the sewers was to have been attended to in the beginning of the year, but owing to defects in the same the matter was placed in the hands of the City Engineer and No. 2 Committee, where it has remained. Your Board would also recommend to our successors the advisability of taking steps necessary to have Carling Creek made a trunk sewer, as your Board considers that in doing so would confer a lasting benefit to the ratepayers in general and place our city on a good sanitary basis.

In conclusion,your Board earnestly hope that, in the year now entered upon, our successors in office will keep as vigilant an eye to the sanitary improvements of the city as those now retiring, and I have no doubt but all will be well.

The report was adopted.
